

Biological Science

**Fish, Benthic Invertebrate, and Algal
Community Surveys**
Mussel Surveys and Fish Host Determinations
Contaminant Pathways in Aquatic Biota
Microbial Source Tracking
Reservoir Plankton Dynamics
River Mapping and Stream Habitat Assessment
Biotic Response to Nutrients in Streams
Environmental Flows Assessment
Use and Attainability Assessment (UAA)
Geographic Information System (GIS) Applications
Biological Database Design and Development

Invertebrate sampling

Fish tissue sampling

River mapping

USGS Texas Water Science Center
Biological Study Sites

Collecting zooplankton

Mussel survey

Boat electrofishing

MISSION: To provide reliable, impartial, timely information that is needed to understand the Nation's water resources.

The Water Resources Discipline actively promotes the use of this information by decision makers to

- Minimize the loss of life and property as a result of water-related natural hazards, such as floods, droughts, and land movement
- Effectively manage groundwater and surface-water resources for domestic, agriculture, commercial, industrial, recreational, and ecological uses
- Protect and enhance water resources for human health, aquatic health, and environmental quality
- Contribute to wise physical and economic development of the Nation's resources for the benefit of present and future generations

The U.S. Geological Survey (USGS) Texas Water Science Center works in cooperation with approximately 100 municipalities, river authorities, groundwater districts, and State and Federal agencies in Texas to provide reliable, impartial scientific information to resource managers, planners, and other customers. This information is gathered by the USGS Texas Water Science Center to minimize the loss of life and property from natural disasters, to contribute to the conservation and sound economic and physical development of the Nation's natural resources, and to enhance the quality of life by monitoring water, biological, energy, and mineral resources.

If you have any questions or concerns with which we can assist you, contact us or visit our Web site at <http://tx.usgs.gov> or the national Web site at <http://www.usgs.gov>. We look forward to serving you in the near future.

Management staff and key specialists of the USGS Texas Water Science Center:

<u>USGS-Texas contacts</u>	<u>Title</u>	<u>Telephone no.</u>	<u>E-mail address</u>
Bob Joseph	Director	(512) 927-3502	rljoseph@usgs.gov
Greg Stanton	Deputy Director for Studies	(512) 927-3558	gstanton@usgs.gov
Tim Raines	Acting Chief, Hydrologic Data Collection & Management	(817) 263-6545 x201	thraines@usgs.gov
Meghan Roussel	Central Texas Program Chief	(512) 927-3503	mroussel@usgs.gov
Mark Null	South Texas Program Chief	(210) 691-9262	jnull@usgs.gov
Mike Turco	Gulf Coast Program Chief	(936) 271-5312	mjturco@usgs.gov
Tim Raines	North Texas Program Chief	(817) 263-6545 x201	thraines@usgs.gov
George Ozuna	Senior Program Manager	(210) 691-9225	gbozuna@usgs.gov
William Asquith	Lubbock Field Office	(806) 742-3129	wasquith@usgs.gov
Keith Snider	Data Chief, Wichita Falls Field Office	(940) 692-4283	krsnider@usgs.gov
Cary Carman	Data Chief, San Angelo Field Office	(325) 944-4600 x20	cdcarmen@usgs.gov
Mark Null	El Paso Field Office	(210) 691-9262	jnull@usgs.gov
Jaimie Ingold	Corpus Christi Field Office	(361) 985-6266	ingoldj@usgs.gov
