

Flood Response

- Acoustic Discharge Measurements
- Flood Inundation Mapping
- Flood Frequency Estimation
- Flood Warning Networks
- USGS WaterAlert Customizable Alerts
- Flow Duration Analysis
- Geographic Information System (GIS) Applications
- Precipitation Data
- Real-Time Stream Data
- Hurricane Storm Surge and Temporary Real-Time Gage Options
- Post Flood Surveying of High-Water Marks
- for Indirect Measurements of Peak Discharge
- Cooperative efforts with the NWS/RFC* to Coordinate
- Real-Time Conditions for Emergency Response Officials

Servicing Gage

MISSION: To provide reliable, impartial, timely information that is needed to understand the Nation's water resources.

The Water Resources Discipline actively promotes the use of this information by decision makers to

- Minimize the loss of life and property as a result of water-related natural hazards, such as floods, droughts, and land movement
- Effectively manage groundwater and surface-water resources for domestic, agriculture, commercial, industrial, recreational, and ecological uses
- Protect and enhance water resources for human health, aquatic health, and environmental quality
- Contribute to wise physical and economic development of the Nation's resources for the benefit of present and future generations

* NWS/RFC: National Weather Service/River Forecast Center

The U.S. Geological Survey (USGS) Texas Water Science Center works in cooperation with approximately 100 municipalities, river authorities, groundwater districts, and State and Federal agencies in Texas to provide reliable, impartial scientific information to resource managers, planners, and other customers. This information is gathered by the USGS Texas Water Science Center to minimize the loss of life and property from natural disasters, to contribute to the conservation and sound economic and physical development of the Nation's natural resources, and to enhance the quality of life by monitoring water, biological, energy, and mineral resources.

If you have any questions or concerns with which we can assist you, contact us or visit our Web site at <http://tx.usgs.gov> or the national Web site at <http://www.usgs.gov>. We look forward to serving you in the near future.

Management staff and key specialists of the USGS Texas Water Science Center:

<u>USGS-Texas contacts</u>	<u>Title</u>	<u>Telephone no.</u>	<u>E-mail address</u>
Bob Joseph	Director	(512) 927-3502	rljoseph@usgs.gov
Greg Stanton	Deputy Director, Hydrologic Studies	(512) 927-3558	gstanton@usgs.gov
Terry Schertz	Deputy Director, Hydrologic Data Collection and Mgmt	(512) 927-3587	tschertz@usgs.gov
Meghan Roussel	Chief, Central Texas Program	(512) 927-3503	mroussel@usgs.gov
Mark Null	Chief, South Texas Program	(210) 691-9262	jnull@usgs.gov
Amy Beussink	Chief, Gulf Coast Program	(936) 271-5312	ambeussi@usgs.gov
Tim Raines	Chief, North Texas Program	(817) 263-9545 x201	thraines@usgs.gov
George Ozuna	Senior Program Manager	(210) 691-9225	gbozuna@usgs.gov
William Asquith	Lubbock Field Office	(806) 742-3129	wasquith@usgs.gov
Cary Carman	Data Chief, San Angelo Field Office	(325) 944-4600 x20	cdcarmn@usgs.gov
Jaimie Ingold	Corpus Christi Field Office	(361) 825-2073	ingoldj@usgs.gov
Jeff East	Surface-Water Specialist	(936) 271-5326	jweast@usgs.gov
Jeremy White	Groundwater Specialist	(512) 927-3585	jwhite@usgs.gov
Kent Becher	Water-Quality Specialist	(817) 263-9545 x204	kdbecher@usgs.gov
Daniel Pearson	GIS Specialist	(512) 927-3561	dpearson@usgs.gov
Peter Van Metre	Sediment Specialist	(512) 927-3506	pcvanmet@usgs.gov
Barbara Mahler	Karst Specialist	(512) 927-3583	bjmahler@usgs.gov
Claire DeVaughan	Geospatial Liaison for Texas	(512) 927-3566	cdevaugh@usgs.gov
Milton Sunvison	Instrumentation Specialist	(512) 927-3533	mwsunvis@usgs.gov
Lynne Fahlquist	Public Information Officer	(512) 927-3508	lfahlqst@usgs.gov
Mike Canova	National Water Information System (NWIS) Manager	(512) 927-3536	mcanova@usgs.gov
